

## Mounting Blocks

These mounting blocks are lightweight, 100% rust-free, UV stabilised and manufactured from reinforced pvc. Suitable for mounting air conditioning units and domestic air source heat pumps. The blocks reduce vibration and are supplied with fixings for a simple, rapid installation.

### Features:

- Supplied with anti-slip strips on the base.
- End caps are available for a professional finish.
- Available in three sizes.

Part Code	Description	Safe Working Load	Height	Length	Width
