

CS-3 COOL SEAL™ LEAK SEALER STICK CAPSULE

Spectrolin[®] leak detection sealants

Seals leaks in condensers, evaporators, O-rings and hoses. Can add years to older, out-of-warranty AC&R systems that leak small amounts of refrigerant.

- Works with all popular refrigerants and oils.
- Non-polymer, oil-soluble formula safe for system components and recovery equipment
- Remains safely in system to help protect against future leaks
- Can be injected with system off or running
- Use any 1/4" ball valve to purge lines before use

HOW DOES IT WORK?

When Cool Seal meets the leak and is therefore exposed to the atmosphere the drop in ambient pressure and temperature creates a scab-like seal over a leak. Cool Seal then continues to collect around the outer perimeter of the leak site until it is fully sealed.
