

INTRODUCING: THE NEW FRIONETT® RANGE

FRIONETT® ACTIV' — A range of cleaning products to replace the original 'Frionett' range

Frionett® Activ' RTU is a ready to use disinfecting, deodorising (pine scent) and degreasing cleaning product. Formulated to eliminate bacteria and algae, Frionett® Activ' is the ideal product for the cleaning and maintenance of air conditioning and refrigeration equipment (evaporators and indoor units etc).

Bactericide: EN 1040, EN 1276, NF T72-300 (Salmonella typhimurium, Listeria monocytogenes), EN 13623 (Legionella pneumophila)
Fungicide: EN 1275 (Candida albicans)

Frionett® Activ' is a concentrated disinfecting, deodorising (pine scent) and degreasing cleaning product. Formulated to eliminate bacteria and algae, Frionett® Activ' is the ideal product for the cleaning and maintenance of air conditioning and refrigeration equipment (evaporators and indoor units etc).

Bactericide: EN 1040, EN 1276, NF T72-300 (Salmonella typhimurium, Listeria monocytogenes), EN 13623 (Legionella pneumophila)
Fungicide: EN 1275 (Candida albicans)

Frionett® Activ' Foam is a powerful active foam intended for in-depth surface cleaning. Formulated to eliminate bacteria and algae, Frionett® Activ' foam cleans, degreases and removes foul odours from air conditioning (wall and ceiling units) and refrigeration (evaporators) equipment.

Bactericide: EN 1040, EN 1276, NF T72-300 (Salmonella typhimurium, Listeria monocytogenes), EN 13623 (Legionella pneumophila)
Fungicide: EN 1275 (Candida albicans)

Frionett® Activ' One Shot is a disinfecting and deodorising (pine scent) product particularly intended for the treatment of ventilation ducts and to purify the air in enclosed spaces.

Bactericide: EN 1276, NF T72-300 (Pseudomonas aeruginosa, Escherichia coli, staphylococcus aureus, Enterococcus hirae)
Fungicide: EN 1650 (Aspergillus niger and Candida albicans)

FRIONETT® POWER — A range of general purpose cleaning products for smooth surfaces

Frionett® Power RTU is a ready to use general-purpose cleaner for all smooth surfaces. This product contains a light scent. This alkaline product is intended for the professional cleaning of refrigeration and air conditioning equipment: heat exchangers (evaporators, condensers) etc. Its cleansing and degreasing power eliminates dust, grease and other dirt, and this makes it possible to optimise the exchanger's heat transfers and restored performance.

Frionett® Power is a concentrated general-purpose cleaner for all smooth surfaces. This product contains a light scent. This alkaline product is intended for the professional cleaning of refrigeration and air conditioning equipment: heat exchangers (evaporators, condensers) etc. Its cleansing and degreasing power eliminates dust, grease and other dirt, and this makes it possible to optimise the exchanger's heat transfers and restored performance.

FRIONETT® CONTACT — A foodsafe cleaning product

The surfaces cleaned with Frionett® Contact RTU which could enter into contact with food, must be rinsed with tap water.

Frionett® Contact RTU is a powerful ready to use disinfecting and degreasing product. Formulated without perfume, this alkaline product is intended for cleaning refrigeration equipment. Its indirect food contact approval allows this product to be used in the food industry (cold rooms, cold stores) and in professional kitchens.

Bactericide: EN 1040, EN 1276, NF T72-300 (Salmonella typhimurium, Listeria monocytogenes), EN 13623 (Legionella pneumophila)
Fungicide: EN 1275 (Candida albicans)

The surfaces cleaned with Frionett® Contact RTU which could enter into contact with food, must be rinsed with tap water.

Frionett® Contact Booster is a powerful ultra concentrated disinfectant and degreaser that must be diluted with water before use. Formulated without perfume, this alkaline product is intended for cleaning refrigeration equipment. Its indirect food contact approval allows this product to be used in the food industry (cold rooms, cold stores) and in professional kitchens.

Bactericide: EN 1040, EN 1276, NF T72-300 (Salmonella typhimurium, Listeria monocytogenes), EN 13623 (Legionella pneumophila)
Fungicide: EN 1275 (Candida albicans)
